Gameday Tunnel help

This year, I'd like to delegate the responsibilities of the tunnel set up / take down to non-Sr Dads. As many of you know, this is a very easy task and requires two guys to put it up about 30 mins before kickoff and take it down and store it. It takes about 4 minutes to put up (you put in place, plug in and watch) and about 10 to take down (unplug, unzip and watch). I've done it many times alone, it's not hard. After the team runs through, I'd typically pull and let deflate on its own, in the back of the end zone and then fold it up at halftime and store. It's pretty easy. As it's Jack's last year, I'd prefer to not be on the hook for that each time. If you can spare the extra 15 mins, please let me know which games you can do (or all). Thanks to Cary Helton for committing to getting the fog tanks filled each week.

Chalk Talk

Every Tuesday night following a game, we will meet with Coach Brunell, have dinner and review the game tape as well as look at the scouting report for the upcoming game. Please do all that you can to attend. We will remain at River City Brewing Company, in a private room and with dedicated wait staff. Please understand that we are fortunate to meet there, with all the accommodations but that they have expenses so let's contribute as much as we can. I strongly encourage you to eat / drink and spend money so that it makes it worth it for them. I will be there the bar, we should order dinner (at your own expense) by p for the film session. Dinner is optional, only encouraged.

*WOW!
Thanks Rich!*

Thanks guys in the box!

The Athlete's Prayer

God, grant me strength to give my all,
Discipline to remember teamwork,
Wisdom to learn the lessons sports teach,
And courage to demonstrate good sportsmanship on and off
the field.
In Your name I pray. Amen.
