

Community Resource Relay

As students, you sometimes deal with difficult situations, and while you may want to handle things on your own, there are definitely situations that need to be shared with a trusted, caring adult. Each person listed in this game represents a resource you can go to for help and someone who can support you. To remind you of some of the people you can go to on campus, we want to know...

Which Advisory can identify all their ESJ resources the fastest?

- One person at a time will toss their bean bag into the first resource hoop.
- If the bag misses the student who tossed the bag runs to get the bag and hands it off to the next person in line to try again.
- First Advisory to fill up the resource card wins!
