

Many families have asked about resources for students to begin exploring their interests as they relate to the college search process. We are pleased to let you know that all Episcopal students have access to YouScience through their SCOIR account. YouScience is an aptitude-based guidance platform that helps students recognize their aptitudes, validate their skills, and identify potential educational and career pathways.

We've recently learned that SCOIR is ending their partnership with YouScience; however, students who create a free account **prior to June 30** will have access for the next 10 years.

From the homepage of SCOIR, you'll go to your profile.

On the left side of your profile page, you'll see "Careers."

Academic Overview

Personal Bio

Activities & Achievements

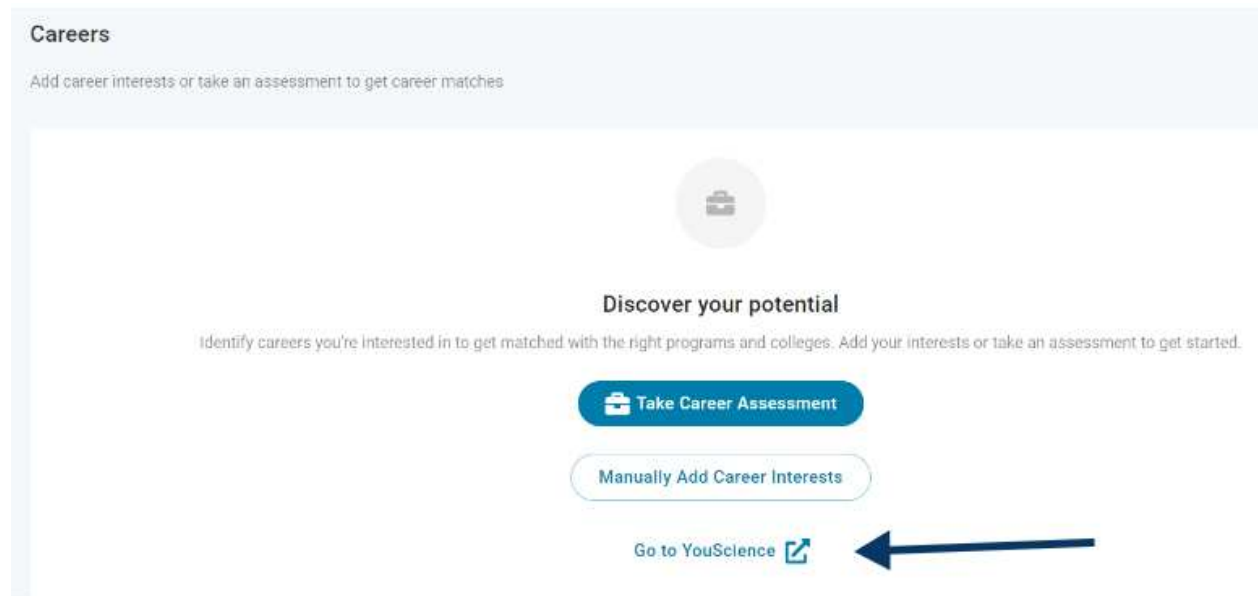

College Preferences

Careers

My Drive

From there, you'll want to click on "Go to YouScience."

Once on the YouScience homepage, you'll choose the "Aptitude + Interest" assessment.
